SAANY PORTABLE

NEBULIZER 4 NOZZLES FOR DISINFECTION

Saany Portable is a system for the disinfection of internal and external environments, consisting of a nebulizer and equipped with a head with 4 air / water nozzles.

OPERATION

Saany Portable can be used in the usual manual disinfection mode or, by intervening on the taps with the exclusion of the manual lance, in the spray system mode in height with 4 air / water nozzles.

- Nebulization device (Fig. A) for the distribution of the diluted disinfectant
- Telescopic pole with adjustable height from 1.5m to 2.3m
- Very fine mist-like nebulization (Fig. B)
